alsins..... 1834 Per Per Per Per REVIEW OF THE WEEK.

The business reports from commercial points, show but moderate activity, in the general. The Cincinnati Com-mercial says:

The elaments of financial matters continue to shape themselves into a more harmonious and comfortable con-dition; and though ne decided increase is observed in the amount of accommodations the bankers are able to grant, or in a dimunation of the number of horrowers, we have incess seems to be taking a course that inspires confidence iness seems to be taking a course that inspires confidence and promises a very prosperous future. It is apparent that the 'great burdens' of our city will be entered upon with cheerful yet cautions feelings much improved by the experience of the eccentric year just closing.

The rates of discounts are, as heretofors, quoted nominally 9@12 per cent., these figures being varied from in accordance with the reputsion of the borrower, his position in bank, and his endotsers.

The Boston Shipping List says:

The Boston Shipping List says:

The husiness of the week has been but moderate, although we rolive more inquiry for many of the leading staples. Flour continues to arrive quite freely and has met with an solive demand from the trade, at gradually improving prices. Corn has advanced again in price, but with a dull market and better supplies at the close, but with a dull market and better supplies at the close, but with a dull market and better supplies at one of the sensor, and several weeks in advance of the receipts of last year. Provisions have been more inquired for, and Pork has been sold to some extent to the B astern trade. Sugar and Molasses remain without material change.—Cleutta Gods have been more inquired for and nearly all kinds are beld with considerable firmness. Hides and Leather continue dull in consequence of the depressed state of the Boot and shoe trade.

The Stock market is depressed. The New York Tri-The Stock market is depressed. The New York Tribune : aya:

The Stock market to day had apparently lost nearly all of the attength and activity displayed in the dealings on Saturday, and there was a decline of about \$5.25 Feath. In leading stock as compared with the closing p tens of that day. It would be difficult to account for this audien change in the tone of the market, except upon our previous hypothesis that a profund indifference to stock pseculation is manifested by the public, and that the occasional spaces of activity and improvement witnessed are the result of movements on the part of a few orerators of the Board and some veteran street speculations. The only stocks which were at all prominent in the dealings were New York Central and Galena, the transactions in other stocks falling considerably below the average of daily business.

NEW YORK CATTLE MARKET.

BULL'S HEAD.—The N. Y. Tribune says: "There were over 3 500 head of animals, I cettonally called beef cattle," seported in Fot ty-fourth street yeateday, with a fair prospect of a few more to come in this morning, so as to make up the number 4,000 for over, which is sufficient to entirely overstock the market and knock down the price below what the drovers called ruinous rates last week. The asking price yesterday for the best cattle in the yards, such as well fid Chester County (Fa.) bullocks, of thout 8 cwt each, was only 10c net a pound, and owners insist that at 10c buyers got a full 15 cwt off of the real wight. The owners only offered hims cents and the first-class butchers acknowledged beying the best to be found at 03/c. This is full half's even below the quotations of last week for the class of cattle, but this does not give the full view of the depressed state of the market which falls must heavily upon the medium class, such as good fair sterrs for the retail butchers at 5c., and the grade sull ability for packers of beef at 64/60 fc. The poorer grades self at still four raise, sey 4,65c. as pound for the net weight of means. At these rates the market opened the dulles of the space, the same portion of the cattle were sold, leaving a large supply for to-day, with a very gloomy prospect of selling the whole of the stock in market at any price. Unless the trade reviews to day very much above what the opening of the market indicates. It is probable that the regular report. NEW YORK CATTLE MARKET. of the stock in marke at any price. Unless the trade rerives to day very much above what the opening of the
market indicates, it is probable that the regular report
of the market which we prior on Thursday will show the
lowest rates of this sesson. The pork market has also
got what the drovers call a 'glack eye.' The nicest kind
of dressed hogs, from Duichness county, sold yesterday at
onig seven cents a pound. This decline affects the price
of beef cattle."

A. M. Allerton & Co., proprietors of the Washington Drove Yards. Forty fourth street, r-port the callle is market from the following states and Caunda:

to. reported for this market at Forty fourth street 4,100 The prices are reported as remove:

First quality - 768c.
Medium - 768c.
Some extra good Beeves may be quoted at - 21 c.

The general average of the market at - 27 c.

The most of the sales range from - 660 kc.

Total number of Beeves received in the city this week - 5.517. The prices are reported as follows:

Week - - - - 5,517.

This is 545 head less than last week, and 1,887 head OUR SALES LARGELY INCREASE

more than the average of last year. The average number at each Wedbesday market last year was 2,786 head, white for how the number to day, being 4,160, shows 1,818 head more than the average, and 208 head more than this day week. PHILADELPHIA CATTLE MARKET.

PRILADELPHIA CATTLE MARKET.

The offerings of beef cattle, at the two Drove Yards, amounted to shout 2,200 head all of which however, were not disposed of even at the reduction. The prices in this market during the past week have sympathized with the recont Secine in New York—we reduce our quotations to day 50° F 10° Hes. A speculative movement sprung up coveral weeks go in many of our trincipal markets, when the prices of beef cattle w-re low. Holdets of stockin have been obliged to yield to a concession or suffer the heavier loss occasioned by keeping on hand a greater supply than they could gat rid of The following are the quota-loss: Choice quality, \$73,89° 10°ths, \$5.38,6.50°, fair, \$7.28,7.50° common, \$4.04.20°. The arrivals of Sheep during the week comprised about 5.856 head, which were sold at 6% 60° V in at according to quality. Cows or Adout 50° head arrived and sold at from 8.25° 6.50°, according to quality. At 'Imboff's Heg Market, 1725 head were offered, seiling at \$7.02@8.00° V 10°, according to quality.

The Chicago Journal of the 18th ult., says:

Our commercial columns for m day to day have exhibited the amount of gain and flour daily received here, for all of which a corresponding amount of money is sent lack daily into the country tributary to this city. Yes briday, for instance, the receipts of flour and grain at this point eers can valent to 129,000 bushels. At a mederate estimate this smeunt of grain represents \$120,000, which money was sent back to the country for it. It is no exargeration to say, that from \$100,000 to \$150,000 are duly sent from this city into the country for grain, and that this has been the case for some weeks past. This, besides, is exclusive the amount pad out for grain brought in by magons as our recipion only embrace the casal lake and railroads. There is no indication at all that the supply of wheat is becoming exhausted, and that there is no reason why the receipts may not continue to average, in value, \$125,000 per day until next Spring.

The Alton, Ill. Courier says:
The middle of this week will bring the date at which
the packing of hope commenced least year. As was remarked more than a fortal ht ago, the season will not marked more than a forthilbt ago, the season will not open this year so as it into a week of the days.

Something was done lest week at Smith's in cattle—about 100 bend were staughtered and packed, and should as many ore the week tefore. At the other establishments, Wade's and Walkers & Greenwood's, nothing has yet been done, sither in hoge or cattle.

This week a few cattle will be packed at each of the houses, should the weather be at all favorables. No contracts have yet been made for hors—a few have been bought from wagons at \$4.50. Vely few offering yet-and at figures much adore those of buyers. A few may be killed the last of the week though that very likely. Two or three small lots passed through during the week on foot, and some by railroad—about 1,000 head in all.

COTTON .- Letters from Memp

for many days enjoyed, tres a pleasant aspect to every thing. Business is not as inactive, the thitching posts are all occupied by day, whicles in large numbers, and persous in larger numbers from the surrounding country, daily throng our streets, giving quite an animated appear-THE STATE OF ORIO. | Special Term of the Court
